Tasks and Visits

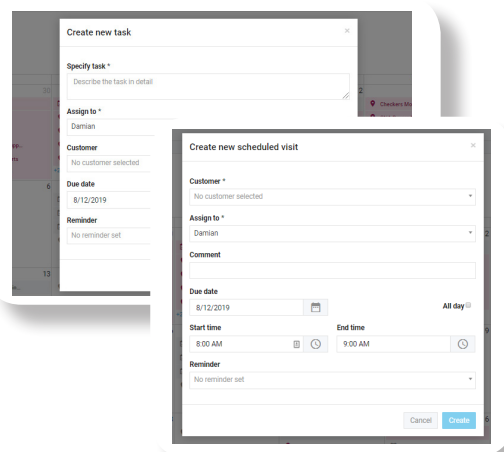

Product Feature Focus

An easily shared calendar without the fuss

Skynamo's calendar feature means sales teams can easily plan their day, week or month, and managers can immediately view this information via their Skynamo web portal.

Managers or internal telesales users can also easily add visits or tasks to a field rep's calendar from the web portal without having to contact the sales teams to check their availability.

Watch sales soar.

Plan your day or week better

Skynamo helps sales teams plan customer visits more efficiently - templates make it easy to import existing call cycles directly into individuals' calendars.

Sales teams can also get a quick overview of their day or week by viewing tasks and visits scheduled.

- Overdue tasks or visits are pink
- Upcoming tasks or visits are blue
- Completed tasks or visits are grey
